Dear Mr. Eisenberg:

I wish to express my gratitude for your generous support of the symposium on "Endothelial Cell Heterogeneity and Organspecificity" at the annual meeting of the American Society for Cell Biology. Thanks to endorsements, such as yours, we will be able to defray, in part, the costs for bringing together an excellent rotation of speakers to address this timely issue of vascular biology.

I will certainly announce your support in my introduction, and in case we should be publishing any "proceedings", I will acknowledge your contribution and, of course, send you the papers. Thank you again for your generosity.

Sincerely,

Peter I. Lelkes, Ph.D.
